Security

Know with confidence your information is safe.

Bank Level Security

You can be confident that your important information is safe. We use the same 256-bit encryption and physical security that banks use to protect your private details and our practices are monitored and verified by **Verisign** and supported by **McAfee Security**.

No one can touch your money

As this is a 'read-only' service, your money is untouchable - by you and anyone else! The purpose is to organise and analyse your finances, not to pay bills or transfer money. There is no functionality to allow you to move funds in or out of any accounts so your cash is safe.

Trusted by over 60 million worldwide

We have partnered with Yodlee - the same technology chosen by 600 leading banks, financial institutions and companies around the globe - to provide a robust, secure and customer-centric platform.
